

About Camp Mummichog...

Come make discoveries at Camp Mummichog! Building on the success of the DRA's after-school Junior Naturalist program and our Native American Village Project, the Damariscotta River Association's School for Field Naturalists offered its first day camp series in 2006. This year we will explore forests, marshes, and fields and unravel some of nature's mysteries.

Training Youth to Be Leaders

Youth can apply to the Education Coordinator to be a Councilor-In-Training at Camp Mummichog. Eligibility requirements include: having attended at least two School for Field Naturalist programs with at least one of those being a Camp Mummichog session and being at least twelve years old.

About Us

The Damariscotta River Association is a non-profit membership supported organization dedicated to preserving and promoting the natural, cultural, and historical heritage of the Damariscotta River, its watershed, and adjacent areas for the benefit of all. Hundreds of acres of preserved fields, wetlands, forest, and coast offer a wealth of opportunities for discovery of the natural world.

The DRA headquarters: a fully refurbished 1700's farmhouse set on more than 100 acres.

Meet the Education Coordinator

Sarah Gladu has a Masters in Environmental Education from the University of Minnesota. Sarah has worked in this field for 16 years and says, "Sharing my passion for nature with a diverse audience is a fulfilling and challenging opportunity."

A nature adventure day camp
at the
Damariscotta River Association

Summer 2009

A day camp on the shores of Great Salt Bay providing:

- ☞ nature discovery activities
- ☞ games that teach ecological concepts
- ☞ arts and crafts
- ☞ a supportive environment to grow, learn, and play

Camp Mummichog 2009
